

THE WORLD'S LEADING ELECTRONIC PLATFORM. [CME GLOBEX](#).

TRADE FUTURES AND OPTIONS. FASTER AND SIMPLER.

The CME Globex platform was the first – and remains among the fastest – global electronic trading system for futures and options. Through its advanced functionality, high-reliability and global connectivity, it is now the world’s premier marketplace for derivatives trading. CME Globex gives you access to the broadest array of futures and options products available on any exchange, virtually around the clock, from anywhere in the world.

WHEN MARKETS MOVE, THEY MOVE ON CME GLOBEX.

Reaping the greatest possible returns in today's markets requires speed, liquidity and flexibility to execute complex strategies flawlessly and get in and out of positions easily. CME Globex gives you access to the broadest array of futures and options products available on any exchange, virtually around the clock.

Speed

CME Globex is capable of processing more than 9 billion quotes per month based on actual usage, with an estimated average response time of under five milliseconds.

Breadth and Depth

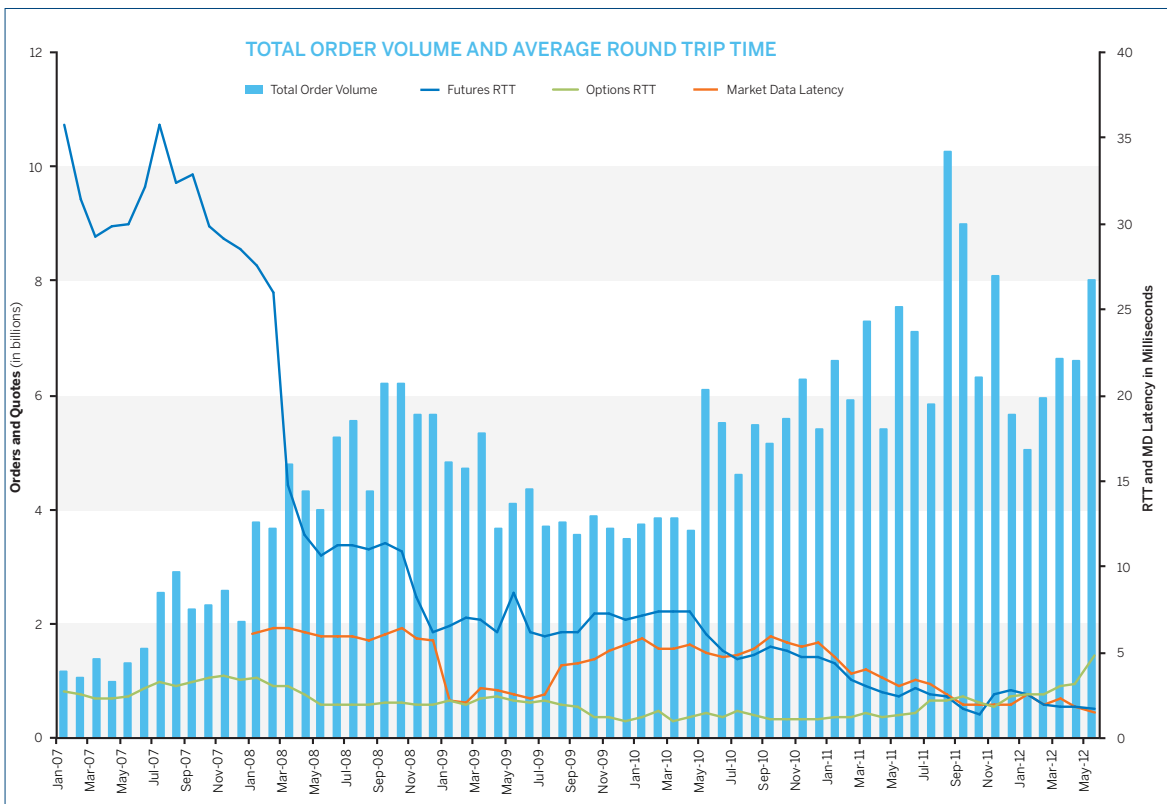

CME Globex offers a wide range of futures and options in thousands of possible expirations and spreads, including interest rates, equity indexes, foreign exchange, agricultural commodities, energy, metals, weather, real estate and environmental commodities.

Access Around the World

With global distribution and international hubs, CME Globex offers trading around the globe and around the clock. And through our partnerships with other exchanges, you have expanded access to growing markets in Latin America, Asia and the Middle East.

Our electronic trading platform offers customers:

- Streamlined development efforts
- Single source for production customer support
- Access to free risk management tools
- More efficient access to real-time market data
- 10-deep futures and 3-deep options for most markets
- High-speed, high-volume capacity
- Improved options capabilities and a range of new products
- Direct Order Routing to Brazil Exchange BM&FBOVESPA and Mexican Exchange MexDer, Mercado Mexicano de Derivados
- Access to products listed directly on CME Globex and traded on the Dubai Mercantile Exchange (DME), GreenX, the Kansas City Board of Trade (KCBT), the Korea Exchange (KRX), the Minneapolis Grain Exchange (MGEX) and Bursa Malaysia (BMD).

HOW TO CONNECT

1. Select a front-end trading application

Trades on CME Globex are executed in less than the blink of an eye and confirmations are immediately sent to the customer anywhere in the world. To access CME Globex, a front-end trading application is required. You may:

- **Use a third-party application provided by your broker, FCM, clearing firm or data center.**
- **License your own third-party application from an Independent Software Vendor (ISV).** If you are interested in advanced options functionality, visit cmegroup.com/globexpartners to view demos.
- **Develop your own proprietary front-end system.**
- **Use a CME Group-provided solution (CME EOS Trader).** If your FCM or ISV does not currently support enhanced functionality on CME Globex, you may wish to consider CME EOS Trader, a Web-based options front-end system offering basic futures functionality. cmegroup.com/eos

2. Connect to CME Globex

Once you have selected a front-end trading application, you can connect to CME Globex directly or indirectly.

Direct Connection

Customer-managed options:

- **CME Co-Location Services** – Comprised of hosting, connectivity and support services – will launch early 2012 at our new state-of-the-art data center. cmegroup.com/colo
- **CME LNet** – 40Mbps or 100Mbps direct connectivity solution to the CME Globex fiber network via a CME Group-approved facility
- **CME Globex Hubs** – connection to redundant data centers in London, Mexico City, Milan, New York, Paris, Singapore, São Paulo, Seoul and Kuala Lumpur
- **Client INTERNETLink** – a secure, online VPN tunnel, commissioned in .5Mbps increments
- **CME EConnect** – A client-managed 1Gbps direct connectivity solution to the CME Globex fiber network from the CME Group local points of presence in New York and New Jersey
- **Jackson Direct** – 40Mbps or 100Mbps direct connectivity solution to the CME Globex fiber network from the Chicago Board of Trade building at 141 W. Jackson Blvd. Chicago, IL

CME Group-managed options:

- **CME DIRECTLink** – 20Mbps, 40Mbps or 100Mbps (U.S. only)

Indirect Connection

Connect to CME Globex via your broker, FCM, Clearing Firm, data center or a facilities provider.

CME GLOBEX HUBS

Access the CME Globex platform from more than 150 countries and foreign territories through a range of connectivity options. These include Internet connections, direct connections and several telecommunication hubs that provide reduced connectivity costs, increased accessibility and fast, efficient trading.

TOOLS AND SUPPORT

Available around the clock and around the world.

CME Group delivers the services to ensure market continuity and reliability by providing tools and customer support online and over the phone.

CME Globex Electronic Trading Platform Support

CME Global Command Center (GCC) The GCC, which is open 24 hours a day, five days a week, is the Market Operations and Customer Service desk for trading on CME Globex. The GCC handles inquiries, issues and support requests from registered customer contacts for all components of the CME Globex platform. The GCC also provides CME Globex order status and, in cases of emergency, can cancel customer orders. To learn more, visit cmegroup.com/gcc.

CME Globex Reference Guide

To learn more about the types of orders CME Globex accepts and to download the CME Globex Reference Guide, please visit cmegroup.com/globexreferenceguide.

Please contact the GCC in the U.S. at +1 312 456 2391, or in Europe at +44 20 7623 4708. The GCC only accepts calls from registered contacts. Please have your firm administrator call the GCC on your behalf.

RISK MANAGEMENT TOOLS

Risk Management Interface (RMI)

An Application Programming Interface (API) and Graphical User Interface (GUI) that supports granular, pre-trade risk management for Clearing firms. RMI allows Clearing Firms to block or unblock order entry by execution firm, account, exchange, derivative type, and/or side. For more information, visit cmegroup.com/rmi

FirmSoft

A browser-based order management tool that provides real-time information on working and filled CME Globex orders, across multiple firm IDs. With FirmSoft, customers can view and cancel orders. For more information on FirmSoft, visit cmegroup.com/firmsoft.

CME Globex Credit Controls (GC2)

This tool provides pre-execution risk controls that enable clearing firm risk administrators to set credit limits. For more information, visit cmegroup.com/gc2.

Drop Copy

This service allows customers to receive real-time copies of the CME Globex execution report and reject messages as they are sent over iLink order entry sessions. For more information, visit cmegroup.com/dropcopy.

Cancel on Disconnect (COD)

Upon an involuntarily dropped CME Globex to iLink user connection, COD cancels all resting session/day futures and options orders for that user. For more information, visit cmegroup.com/cod.

Get started trading on CME Globex today.

Futures trading is not suitable for all investors, and involves the risk of loss. Futures are a leveraged investment, and because only a percentage of a contract's value is required to trade, it is possible to lose more than the amount of money deposited for a futures position. Therefore, traders should only use funds that they can afford to lose without affecting their lifestyles. And only a portion of those funds should be devoted to any one trade because they cannot expect to profit on every trade. All references to options refer to options on futures.
